

Opportunity for businesses in Versant South service area

# Community Solar

Subscribe to a local community solar farm in Brewer to support local energy production, save money on your electric bill, and benefit from renewable energy.

## Subscribe

Start your free subscription to a local community solar farm. They will produce electricity on your behalf.

## Receive Credits

The electricity from your share of the solar farm shows up as Net Energy Billing credits reducing the amount you own Versant.

## Save Money

You pay your solar farm for the value of your credits less a 10-15% discount guaranteeing that you save money with renewable energy.

### Costs

These state-backed programs are free to join and save you money on your electric utility bill.

### Community

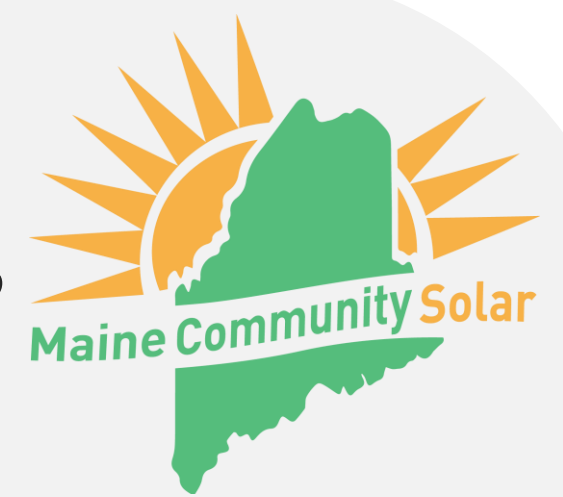

Community solar benefits your local economy with jobs and local energy production.

### Customers

Engage your current customers and attract new customers with sustainable business practices.
